# Procurement

Spectro- Procurement module allows you to easily manage your procurement process. It can start with floating RFPs, Receive bids, communicate and negotiate with suppliers in one place.

Save time collecting and organizing event details, creating comparisons and audits. Let Spectro do it for you so you can spend your time where it matters.

It works for  
“Lease-to-Lease”  
procurement too !

**\* Pro-Version Only**

OPERATIONS LEASING

FINANCE LEASE

CONTRACT TERMS TRACKING

CUSTOMER DOCUMENTATION

SPOT RENTAL

BILLING SCHEDULE

## Contracts

Contract module allows to set contract starting and ending dates, assign customer and leased unit, set prices for various services.

One contract can include multiple services or lease units. Set up reminders based on contract dates. The system checks on data consistency and completeness, and provides a clear list if anything is missing.
